# RealTime Version 10

## Introduction

- Potential new function
- What will be in RealTime Version 10
- Feedback

RealTime Version 10

## Our Objective

“To ensure we incorporate the functionality which adds real value to our customers.”

## Potential New Function

- Receipts Processor (PDE00796) - Confirmed
  - Sanity check on receipted quantity into a warehouse
  - Multiple of the default pack tolerance check
  - Warehouse sin bin with optional freeze in inventory
  - A managed resolution to accidental overbooking
  - Resolves a REAL Issue
- Transport Planning Integration (PDE00864)
  - Load release management
  - Batch generation by transport load number
  - Commitment control by customer
  - Drop sequence management
  - Carry out load despatch as part of marshalling updates

# RealTime Version 10

## Potential New Function

- Marshalling Enhancement Pack (PDE01249)
  - Vehicle load audit
  - Improved late order management
  - Allow De-marshalling of full pallets
  - Subset selection on work with batches
  - Order apportionment at pick
  - Re-useable picking containers
- RDT Lot Transformation (PDE01281)
  - RDT transaction to create a new Lot
  - RDT transaction to change existing Lot
  - Manage shelf life of lot Items
  - Optional label printing routines

## Potential New Function

- FIR Enhancement Pack (PDE01327)
  - Stockroom level transaction configuration
  - Automated lot number generation
  - Recording of input lots for schedule bookings
  - Temperature entry and storage
  - Default workstation / operator
- Pallet Build Enhancement Pack (PDE01329)
  - Merge into marshalling module
  - Assignment of marshalling locations
  - Visibility of marshalled stock
  - Vehicle loading

# RealTime Version 10

## Potential New Function

- Dynamic Replenishment (PDE01217)
  - Replenishment to satisfy grouped orders
  - Prioritisation of commit exception fulfilment
- RDT Receipting Enhancement Pack (PDE01064)
  - Enhancement across all receipt transactions
  - Configurable tolerance checking
  - Collection of user definable data at receipt
  - Deliveries due report additional information

# RealTime Version 10

## Potential New Function

- Transaction Specific Capabilities (PDE00642)
  - Extend pack type capability
  - Extend location access capability
- Two Phase Pick (PDE00854)
  - Bulk pick to marshalling lane
  - RDT controlled repacking
  - Pick labels
- Double Byte Character Set Enablement (PDE01248)
  - New business requirement for Asia Pac

# RealTime Version 10

## Potential New Function

- SOP/Inventory Pick (PDN00856)
  - Simple entry level RealTime picking
  - Barcoded pick note
  - Item verification via barcode scanning
  - Quantity verification against an order
  - Audit history of actual pick
  - Rotation date via extended lot control
  - Auto despatch capability

# RealTime Version 10

## What will be in RealTime Version 10

- Defect Resolution
  - Continue to fix at previous versions and uplift to V10
- Technical Enhancements
  - Continue future proofing
- Compliance
  - Aurora New Developments
  - I-series Operating System
- New Function
  - Already committed function
  - Potential new function

# RealTime Version 10

## Feedback

- Anything We Have Missed ?
  - Compelling events
- Please Complete Feedback Forms
  - Relevance of potential enhancements
  - Additional relevant enhancements
